

## 0,0 LOW CALORIE SPARKLING ROSE

### Description of the product

Freixenet was one of the first de-alcoholised wine producers, and after a long experience, we have decided to launch a new range of products which meets the need of our consumers. In 2022 we take another step, reducing the sugar level to achieve a low calorie wine and being a Vegan friendly product. After many tests and tastings, we found the perfect profile for an innovative product in a growing market. We would like to offer to our customers a wine drinking experience through our FREIXENET 0,0 LOW CALORIE SPARKLING ROSE.

### Analysis

Ehtanol: < 0.05% vol.

Total Acidity (expressed in Sulphuric): 4,00 g/l

Residual Sugar: 38 g/l

### Ingredients

De-alcoholised wine, rectified concentrated grape must, carbon dioxide, antioxidant: sulfur dioxide, preservatives: potassium sorbate and dimethyl dicarbonate, colour: anthocyanines, flavouring.

### Tasting note

The color is very attractive pale pink.

On the nose is very inviting, you can find specially the wild berries such as strawberries, and floral notes like roses. On palate it is especially fruity, floral and refreshing. It has presence in the mouth, remembering the good quality of its raw material. The very well balanced acidity and the fresh fruits taste produce a pleasant mouth feel. The carbon dioxide is well integrated and gives a refreshing finish.

### Recomendations

Serve between 6 and 8 °C. Store it in an upright position, rather away from light and vibration, and constant temperature. It is ideal for appetizers.

### Best before

Consume preferably within 24 months after the date of production.
